

La Alcaldesa de Madrid

Welcome to our city! You have made the decision to choose Madrid as your home for the next few months, whether that be for studying or work, and I am delighted that you've made that decision.

Madrid is very proud to receive students from all over the world, who in the future will return to their home countries and tell anecdotes of their experiences and their life in our city. The universities, parks, museums and many more places that many generations of students have frequented await you and are ready to be discovered. Therefore, we also have a responsibility to make your stay in the city the most pleasant and as comforting as possible.

This will be our third year celebrating the Madrid Student Welcome Day, a leading reception and welcome event that caters to all students coming to Madrid. This is a fun, international event that gives us the chance to welcome all of our new neighbours. As was the case with the two previous events, we will do everything possible to once again make the event a huge success, with an abundance of information about the city and its services. We aim to show you everything that the city has to offer, both culturally and touristically. Discover surprises that can only be found when you come and visit us!

The event will take place on the 30th of September in the headquarters of the Madrid Town Hall, Galeria de Cristal Palacio de Cibeles. This is the historic, cultural and neurological centre of Madrid.

Upon arrival to the event, I will have the opportunity to greet and welcome you on behalf of the many Madrid citizens who happily welcome the arrival of our new neighbours
